

ASX Announcement
20 January 2022

QUARTERLY REPORT DECEMBER 2021

KEY POINTS

Environment, Social and Safety (ESS)

- LTIFR at 0.5 per million man hours
- Proactive steps taken across Australian operations to prepare for Western Australia border openings, expected 5 February; Pogo team continues to manage impact of COVID-19

Production

- Gold sold totalled 392,655oz at an AISC of A\$1,631/oz (US\$1,191/oz) and all-in cost (AIC) of A\$2,069/oz
- By production centre:
 - **Kalgoorlie: 244,915oz gold sold at an AISC of A\$1,538/oz**
 - **Yandal: 102,163oz gold sold at an AISC of A\$1,518/oz**
 - **Pogo: 45,577oz gold sold at an AISC of US\$1,735/oz**
- Kalgoorlie and Yandal continue to perform in line with expectations; Pogo delivered below expectations but is well positioned to increase 2H mining rates
- On track to meet FY22 guidance of 1.55-1.65Moz at an AISC of A\$1,475-A\$1,575/oz

Discovery and Growth

- A\$150 million spent on net growth capital and A\$28 million on exploration
- Key growth projects progressing in line with strategy to become a 2Mozpa producer by FY26, including KCGM open pit development (Kalgoorlie) and Thunderbox mill expansion (Yandal)

Financial

- December quarter average realised price of A\$2,429/oz for sales revenue of A\$950 million
- Cash and bullion of A\$588 million at December 31; Net cash¹ of A\$288 million
- 1H22 Cash Earnings² of A\$425-440 million

Corporate

- Convertible funding agreement for C\$154 million (A\$169 million) with Osisko Mining Inc. (TSX: OSK), including an exclusive right to negotiate a 50/50 JV at Windfall gold project in Quebec, Canada
- Final US\$70 million payment for the acquisition of Newmont Corporation's Kalgoorlie power business

¹ Net Cash is defined as cash and bullion less corporate bank debt (A\$300M)

² Cash Earnings is defined as Underlying EBITDA less sustaining capital, net interest, and corporate tax paid

OVERVIEW

Northern Star Resources Limited (ASX: NST) is pleased to report operational and financial results for the December quarter 2021, with gold sold of 392,655oz at an all-in sustaining cost (AISC) of A\$1,631/oz.

Figure 1: Group Gold Sales and AISC

OUTLOOK

Northern Star's FY22 guidance of 1.55-1.65Moz at an AISC of A\$1,475-1,575/oz is unchanged. As previously foreshadowed, gold production is weighted towards the second half of FY22, driven by increasing grades at Yandal and increasing mining rates at Pogo. As previously stated, AISC is expected to decrease in 2H.

Northern Star continues to take a proactive approach to managing COVID-19. Leaning on our experience at Pogo, where we had to respond quickly to the spread of COVID-19 and adjust our operating structures accordingly, Northern Star is equipped to leverage its operating flexibility to minimise expected disruption. We remain alert to the advice and requirements from State and Federal Governments and health authorities and maintain our focus on the health and well-being of staff and the communities in which we operate.

Northern Star's FY22 net growth capital and exploration guidance of A\$710 million is unchanged. The Company's Five-Year Strategic Plan targets profitable production growth to a sustainable 2Moz per annum by FY26, with declining all-in costs.

Commenting on the December quarter performance, Northern Star Managing Director Stuart Tonkin said:

"We made further positive progress during the quarter to improve the safety performance across our three production centres, including the physical and mental well-being of our people particularly in this COVID-19 environment."

"Kalgoorlie and Yandal continue to perform in line with our expectations. Pogo made solid progress with development crews achieving 1,500 metres during December and the mill operating at 1.2mtpa (expansion completed in the quarter to 1.3mtpa, from 1.0mtpa). This provides confidence in Pogo's ability to deliver ounces in the second half and beyond."

"During the quarter we safely advanced our growth strategy towards becoming a 2Mozpa producer and entered into a convertible funding agreement with Osisko Mining that we believe has the potential to deliver significant value for shareholders."

"We remain on track to meet our FY22 guidance, which incorporates the current WA border closure and associated labour and cost impacts. Our experience at Pogo in Alaska has provided examples of the disruption we may face in WA and the mitigating actions required to reduce operational impact."

Northern Star's December quarter conference call will be held today at 9am AEDT (6am AWST). The call can be accessed at:

https://webcast1.boardroom.media/watch_broadcast.php?id=61dba67e4630b

Depreciation & Amortisation	A\$/oz	784	680	573	734
Non -Cash Inventory Movements	A\$/oz	192	(188)	21	73

(1) Mine Operating Cash Flow is calculated as Revenue, less Cash Operating Costs (excluding inventory movements) and Sustaining Capital. Net Mine Cash Flow is calculated as Mine Operating Cash Flow less Net Growth Capital.

(2) Excludes the impact of unwinding the hedge book fair value assumed as part of the initial acquisition accounting required in relation to the merger with Saracen. Revenue - Gold does not include Development Receipts.

(3) Includes non-cash share-based payment expenses in corporate overheads.

(4) Excludes exploration spend at non-producing projects and regional sites (A\$5M).

Pogo Operations costs are presented in AUD which is the Group's presentation currency. USD cost disclosure is presented in Table 11.

(5) Mine Operating Cash Flow is calculated as Revenue, less Cash Operating Costs (excluding inventory movements) and Sustaining Capital. Net Mine Cash Flow is calculated as Mine Operating Cash Flow less Net Growth Capital.

(6) Excludes the impact of unwinding the hedge book fair value assumed as part of the initial acquisition accounting required in relation to the merger with Saracen. Revenue - Gold does not include Development Receipts.

(7) Includes non-cash share-based payment expenses in corporate overheads.

(8) Excludes exploration spend at non-producing projects and regional sites (A\$10M).

Pogo Operations costs are presented in AUD which is the Group's presentation currency. USD cost disclosure is presented in Table 11.

ENVIRONMENT, SOCIAL AND SAFETY

There were 2 Lost Time Injuries (LTI) reported in the December quarter. Northern Star's Lost Time Injury Frequency Rate (LTIFR) is 0.5 (injuries per million man hours).

Table 3: December quarter 2021 Group safety performance

Term	Yandal	Kalgoorlie	Pogo	Group
TRI	0	4	1	5
TRIFR	2.1	4.5	3.1	3.5
LTI	0	1	1	2
LTIFR	0.0	0.5	1.5	0.5

OPERATIONS

Kalgoorlie Production Centre (KCGM, Carosue Dam, Kalgoorlie Operations)

Kalgoorlie sold 244.9koz at an AISC of A\$1,538/oz (Sept quarter 232.3koz at an AISC of A\$1,533/oz). Mine operating cash flow was A\$239 million. Net mine cash flow was A\$188 million after net growth capital of A\$51 million.

Kalgoorlie is performing in line with expectations with the focus on growth dominated by activities at KCGM.

KCGM sold 127koz at an AISC of A\$1,344/oz (Sept quarter 116koz at an AISC of A\$1,418/oz). Mine operating cash flow was A\$143 million. Net mine cash flow was A\$101 million after net growth capital of A\$42 million.

At KCGM, open pit material movement was lower than in the September quarter run rate because of longer hauls from the bottom of the pit. Mining occurred across Golden Pike, Morrison, Oroya Brownhill and Fimiston South. The Golden Pike, Morrison and Oroya Brownhill ore zones were prioritised above bulk waste movement during the quarter.

The open pit fleet replacement program continued with a 994K loader and 12 x 793F trucks successfully commissioned and a second PC8000 shovel delivered to site for assembly. The PC8000 is assembled ready for commissioning during the March quarter. The 793F truck fleet replacement program is 30% progressed, with completion scheduled for the June quarter.

Ore processed at KCGM site processing facilities was 10% above the September quarter, with shorter shutdown duration, improved SAG mill utilisation and an improved processing rate. The head grade increased quarter on quarter with planned delivery of high-grade open pit feed. District milling continued with a further 117kt of Mt Charlotte free milling ore treated at Kanowna Belle and South Kalgoorlie Operations, which allowed increased milling of the large marginal ore stockpile to be processed at KCGM.

The KCGM mill expansion feasibility study continued with a market update anticipated in the June quarter 2022.

At Carosue Dam, ore continued to be sourced and processed from Karari – Dervish, Deep South and the Porphyry mining district. At Kalgoorlie Operations, ore was sourced primarily from the Kanowna Belle and HBJ underground mines during the December quarter.

Figure 2: Kalgoorlie Production Centre - Gold Sales and AISC

Yandal Production Centre (Jundee, Thunderbox)

Yandal sold 102.1koz at an AISC of A\$1,518/oz (Sept quarter 109.8koz at an AISC A\$1,345/oz). Mine operating cash flow was A\$76 million. Net mine cash flow was A\$(1) million after net growth capital of A\$77 million.

Yandal is performing in line with expectations with a continued focus on progressing the Thunderbox mill expansion.

At Jundee, the quarter was highlighted by another record quarterly development advance of 6,800 metres. Stope tonnes continued to increase during the quarter as new mining areas were accessed.

The Julius open pit continued production to provide a steady ore stream to the Jundee plant as well as supplementing stockpiles. The Ramone Underground Mine development commenced in November to provide high-grade supplementary ore feed to the Jundee plant.

At Thunderbox, a new 190t excavator was commissioned early this quarter. Underground production activities continued to ramp up with record stoping production achieved for the quarter.

The Thunderbox mill expansion is progressing on track with substantial progress on the SAG mill and crusher civils and construction of the coarse ore stockpile and powerhouse. The mill expansion remains scheduled for commissioning in the first half of FY23.

Figure 3: Yandal Production Centre - Gold Sales and AISC

Pogo Production Centre

Pogo sold 45.6koz at an AISC of US\$1,735/oz (Sept quarter 44.0koz at an AISC of US\$1,751/oz). Mine operating cash flow was US\$7 million. Net mine cash flow was US\$(9) million after growth capital of US\$16 million.

Pogo is performing slightly below expectations with a focus on sustaining achievements delivered in the December quarter. Transition to the 1.3Mtpa operating capacity is on track (1.2Mtpa achieved in December), with increased mined physicals expected to increase milled grade in the second half.

Mine development averaged 1,406 metres per month during the quarter, with 1,472 metres achieved in December. Stope ore mined was 132kt, corresponding to 62% of total ore mined.

Low-grade material (2.8g/t) was fed to the mill to complement the underground tonnes, lowering processed grade for the quarter to 6.6g/t compared to the mined grade at 7.3g/t.

Figure 4: Pogo Production Centre - Gold Sales and AISC

Please refer to Appendix 1 for additional information on the individual operations.

DISCOVERY AND GROWTH

A\$28 million was invested in exploration during the December quarter (1H22: A\$59 million vs FY22 guidance: A\$140 million).

Resource growth programs remain in progress across the portfolio, with a continued focus to support the KCGM and Pogo expansion projects. A comprehensive exploration and Resource & Reserve update is scheduled for release in the June quarter.

FINANCE

Cash and equivalents

At 31 December 2021, cash, bullion and liquid investments totalled A\$774 million.

Table 4: Cash, bullion and equity investments

		Mar Q 21	Jun Q 21	Sep Q 21	Dec Q 21
Cash and cash equivalents	A\$M	\$637	\$780	\$704	\$527
Bullion ⁽¹⁾	A\$M	\$59	\$23	\$52	\$61
Investments ⁽²⁾	A\$M	\$16	\$23	\$15	\$186
Total	A\$M	\$712	\$826	\$771	\$774

⁽¹⁾ Bullion includes dore which has been received by the refiner in the quarter and sold and is awaiting settlement and bullion collected by a third-party transport provider.

⁽²⁾ Investments includes C\$154M (A\$169M equivalent) investment in convertible debenture with Osisko Mining. This is the amount paid and does not include any fair value adjustments required by Accounting Standards.

The waterfall chart below highlights the December 2021 quarter movements in cash, bullion and investments (A\$M):

Figure 5: December quarter 2021 cash, bullion and investment movements

Banking Facilities

At 31 December 2021, Northern Star had drawn corporate bank debt totalling A\$300 million (A\$700 million undrawn available facilities).

Hedging

During the quarter 404,999oz of hedging was added at A\$2,506/oz while 116,826oz of hedging was delivered at A\$2,338/oz.

Table 5: Hedging commitments at 31 December 2021

Term	Jun H 22	Dec H 22	Jun H 23	Dec H 23	Jun H 24	Dec H 24	Total
Ounces (oz)	258,993	244,000	175,000	150,000	149,999	150,000	1,127,992
Gold Price (A\$/oz)	2,336	2,311	2,364	2,504	2,506	2,526	2,405

CORPORATE

On 12 November 2021, Northern Star announced the appointment of Ryan Gurner to Chief Financial Officer, effective 1 January 2022, following the resignation of Morgan Ball, effective 31 December 2021.

On 18 November 2021, following the conclusion of the Annual General Meeting, Lead Independent and Non-Executive Director Tony Kiernan retired.

On 1 December 2021, Northern Star completed the acquisition of Newmont Corporation's Kalgoorlie power business for US\$95 million, for a final payment of US\$70 million (in addition to the US\$25 million option fee paid on 3 January 2020).

On 1 December 2021, Northern Star entered into a convertible funding arrangement with Osisko Mining Inc. (TSX: OSK), subscribing for a debenture in Osisko for C\$154 million (A\$169 million) with a maturity date of 1 December 2025, including an exclusive right to negotiate a 50/50 JV at Windfall gold project in Quebec, Canada.

The issued capital of the Company at the date of this Report comprises:

- Ordinary Fully Paid Shares (NST): 1,164,611,199
- Unvested Performance Rights (NSTAA): 6,315,960
- Unvested NED Share Rights (NSTAC): 14,328
