LET'S GROW *together.*

KALGOORLIE-BOULDER URBAN LANDCARE GROUP

Northern Star continues to support the Kalgoorlie-Boulder environment, renewing and strengthening its long-standing partnership with the region's oldest sustainability group.
See inside for more.

GROWTH PROJECT *Update*

KCGM FIMISTON UNDERGROUND

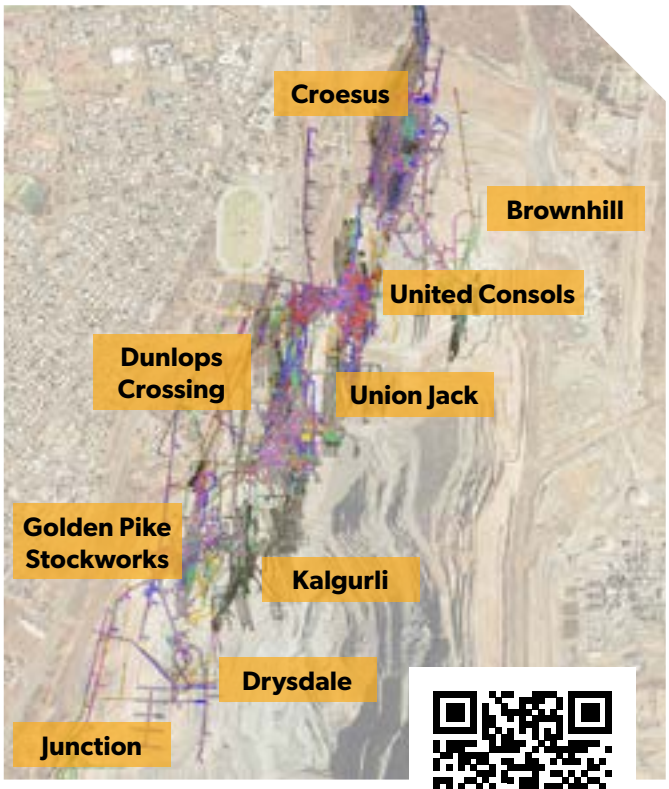

Northern Star is progressing the development of the Fimiston Underground at our KCGM Operations. As part of this work, exploration development and bulk sampling is underway as a key stage of advanced exploration to assess mining methods and better understand the ore body.

Exploration activities at Fimiston Underground support Northern Star's ongoing commitment to extending mine life and delivering long-term economic and community benefits for Kalgoorlie-Boulder.

Fimiston Underground will continue to operate across nine key exploration areas over the coming year as development activity targets extending existing workings to access new exploration areas. During FY27, exploration activities will mainly focus on the United Consols, Union Jack, Golden Pike Stockworks and Croesus areas using underground mining methods.

To support future growth, we are working to accelerate the advancement of the decline at the United Consols area to unlock new underground exploration drilling platforms.

Our underground teams use a range of methods to reduce vibration and minimise impacts on the community. This includes reducing drill hole sizes for smaller instantaneous charges, using precise programmable electronic detonators, firing one primary hole at a time and carefully planning blasting.

NEW LIEBHERR EXCAVATORS JOIN OUR OPEN PIT FLEET

KCGM Operations have welcomed new additions to the open pit fleet, with the arrival of Northern Star's ultra-class Liebherr excavators. Two 600-tonne R9600s are now at the Super Pit, joining 17 other Liebherr machines already operating across Northern Star's operations.

Taking just four passes of the shovel to fill a Cat 793 haul truck, the machinery offers superior digging and has a 20% improvement on fuel efficiency compared to its predecessor. Northern Star received its first Liebherr machine, an R9400 excavator, in 2022.

Community ENGAGEMENT

CONTINUING TO CARE FOR THE KALGOORLIE-BOULDER ENVIRONMENT

Northern Star has renewed and strengthened its long-standing partnership with the Kalgoorlie-Boulder Urban Landcare Group (KBULG), providing increased support for an additional five years to help deliver environmental education and sustainability initiatives across the Goldfields.

The renewed partnership represents a long-term commitment to supporting KBULG's important work in building environmental awareness, encouraging community participation and creating opportunities for people across the region to contribute to a more sustainable local community.

Northern Star Environment Manager Yvonne Hynes said the renewed partnership reflected the importance of supporting not-for-profit organisations that deliver lasting benefits for the local community and environment.

KBULG CEO Kim Eckert said she was proud of the longstanding relationship with Northern Star and looked forward to achieving even more together.

"This is what a true partnership between industry and community looks like, working together, sharing a common vision and making a lasting, positive difference," she said.

Pictured below: KBULG CEO Kim Eckert with Northern Star's Senior Community Advisor, Kendall Paul (left) and Environment Manager - Kalgoorlie Region, Yvonne Hynes (right).

Impact MANAGEMENT

At Northern Star, we are committed to minimising impacts across our operations and within the community where we live and work. We know dust can be a concern for some and we want you to know what action our teams are taking to manage our impact.

Dust monitoring is an important part of this work. Our network of air quality monitoring stations measure dust and wind conditions in real-time, helping guide our teams to respond effectively.

To manage dust across our operations, we use a combination of practical measures. We have recently expanded our water cart fleet, and the team deploys additional contract water carts during periods of hot, dry or windy conditions. During blasting, dust is suppressed by our teams watering down the relevant site before and during a blast.

The teams adjust or pause activities when conditions are unfavourable and work to install a larger water tank and a second standpipe is underway, helping water carts fill up quicker.

MEET OUR *Leaders*

INTRODUCING THE NEW FACES IN OUR LEADERSHIP TEAM

Stephen Fitch | General Manager - KCGM Operations
Stephen is a highly experienced mining executive with a strong technical background in mining engineering and a proven track record of leading and transforming large-scale operations and high-performing teams. After his first week on site, Stephen said he had already been pleased to see how ingrained the Company's STARR Core Values were.

"They will be the foundation for this next phase of the site's life as we complete the commissioning of the new processing plant and focus on safely delivering consistently and reliably on our commitments," he said.

Vic Simpson | General Manager - KCGM Mining
Previously KCGM's Underground General Manager, Vic Simpson has moved to an expanded role to further support the local team both underground and in the Super Pit.

In this role, Vic will be accountable for all mining operations across KCGM, building on the strong leadership and operational expertise he has demonstrated over his 12 years with Northern Star. Vic is a long-time local with a passion for supporting the community he calls home.

Roger Wynn | General Manager - KCGM Processing
Roger Wynn joins Northern Star's upgraded Fimiston Mill with two decades of experience in the mining industry. "It's an exciting time to be joining the team with the new plant in commissioning," he said.

"Working together to get through the plant commissioning safely and with a positive and collaborative culture will be a key focus of mine."

Exciting REVEAL

Our KCGM Operations celebrated a very special gender reveal with employees Kristy and Lance. After 11 years of IVF appointments, procedures and uncertainty, they are now preparing to welcome their first child. Throughout their journey, the support of their workplace leaders and crews, along with the flexibility to balance work, treatment and travel, helped them continue pursuing their dream of becoming parents.

With the help of their crew, leaders and our Drill & Blast team, family, friends and colleagues gathered at the Super Pit Lookout to share in the surprise. For the couple who chose to make Kalgoorlie-Boulder their home, it was a special moment to celebrate with the community that has been alongside them every step of the way. Congratulations Kristy and Lance. Thank you for allowing us to be part of your journey, and for sharing such a special moment with all of us.

Partnership SNAPSHOT

PERTH LYNX RETURN

Elite basketball took over Kalgoorlie-Boulder as the Perth Lynx returned for their annual pre-season tour. Part of the renewed partnership between Perth Lynx and Northern Star, the tour reflected a shared commitment to supporting women's sport and bringing elite basketball to regional communities.

Across three action-packed days, the Lynx took on a WA All-Stars team in two showcase games and connected with local players, coaches and fans during school visits, community programs and coaching clinics. We're excited to continue supporting initiatives that connect regional communities with high-level sport and look forward to cheering on the Lynx during the season.

SPRING FESTIVAL BRINGS JOY

Community spirit was on display at this year's Lorna Mitchell Spring Festival, presented by Northern Star and the Kalgoorlie-Boulder Chamber of Commerce and Industry. The event offered community members a day of family fun, connection and community spirit.

STEM activities and basketball challenges, in partnership with the Goldfields Giants, were the highlight of the Northern Star stall, with prizes won by the sharpest shooters and those who successfully navigated our underground bot challenge.

NORTHERN STAR RESOURCES LTD

ENDING HUNGER WITH FOODBANK

Most recently extended by an additional four years, the ongoing partnership between Northern Star and Foodbank WA supports the services, expansion and impact of the Foodbank Kalgoorlie Branch and its food assistance and nutrition education programs.

A key objective of the partnership is to help the Kalgoorlie Branch deliver more than half a million meals by 2030, ensuring people experiencing hardship across the Goldfields can access nutritious food and household items when they need it most.

TEACH LEARN GROW (TLG)

Maths and STEM can be challenging subjects, but making learning fun can make all the difference. Through our support of TLG's Rural Program, trained tertiary student volunteers head out across the Goldfields to work one-on-one with students through maths and STEM tutoring and mentoring.

The personalised sessions give students the chance to learn at their own pace, build confidence and have some fun along the way.

GOLDEN DONATION

Two 1kg gold bars donated by Northern Star raised $1 million at the Telethon Ball Auction, supporting the life-changing work of Telethon for WA children and families.

Crafted from 99.99% pure gold mined and processed at our Western Australian Operations and stamped, engraved and fabricated in-kind by The Perth Mint, the bars contributed to a cause that makes a lasting difference across the state.

INTO THE PIT WITH LOCAL STUDENTS

Year 4 students from St Mary's Primary School Kalgoorlie and Sacred Heart Highgate recently visited our KCGM Operations for a firsthand look at the mining industry.

Northern Star is proud to offer free Super Pit tours to local schools and educational groups, helping bring classroom learning to life and strengthen students' STEM knowledge through real-world experiences.

UPCOMING *Events*

29 NOV

CHRISTMAS STREET PARTY
4-8pm, Loopline Park, Boulder

Festive fun awaits at the annual Christmas Street Party. Presented by Northern Star and the City of Kalgoorlie-Boulder, enjoy local markets, food vans and live entertainment.

6 DEC

ST BARBARA'S PARADE
10am, Hannan Street, Kalgoorlie

Join in the fun of this annual parade, bringing colour, energy, and local spirit to Hannan Street. Keep an eye out for Northern Star's extra-special CAT793 haul truck.

3 DEC

ST BARBARA'S MINER'S MEMORIAL
6:30pm, Museum of the Goldfields, Kalgoorlie

This annual memorial is a time to honour and remember the men and women who have given their lives in service of the mining industry over the past century.

25 DEC

CHRISTMAS IN THE PARK
11am-2pm, Loopline Park, Boulder

Celebrate Christmas Day with the Kalgoorlie-Boulder community, enjoying a free lunch, ice creams, water activities, games and face painting, as well as a visit from Santa!

The Perth Lynx enjoyed a trip to the Super Pit Lookout, learning more about the gold industry during their 2026 Goldfields Tour.
