# Central Tanami Gold Project

## Transaction Highlights

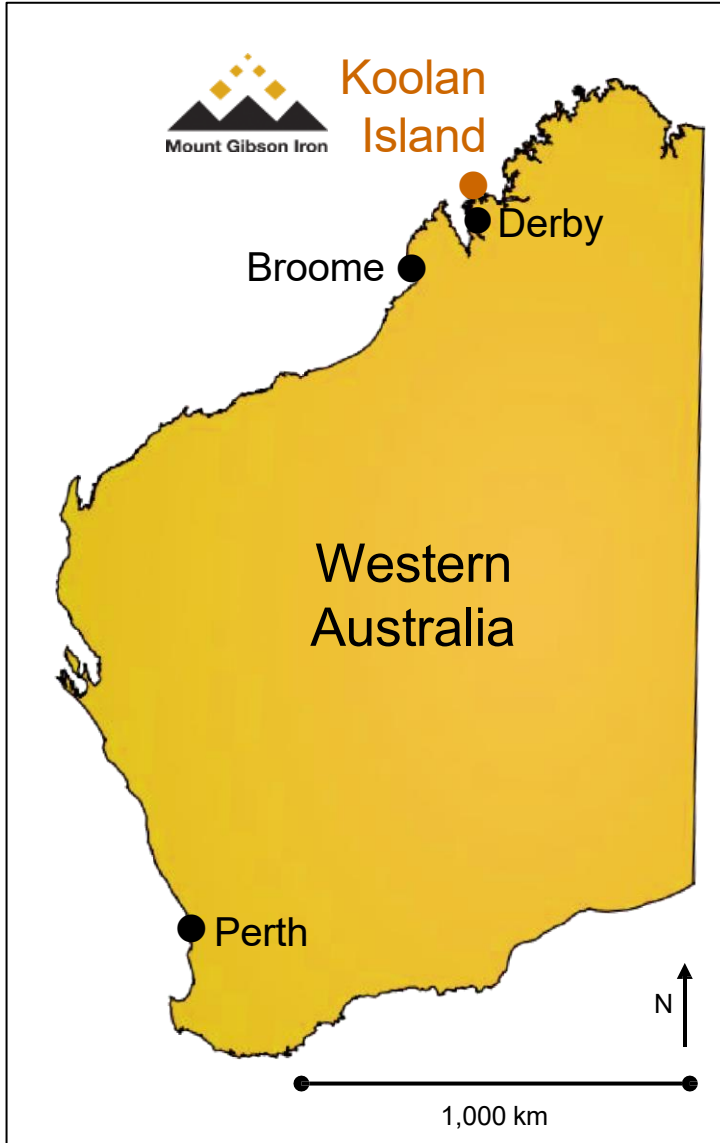

Mine haul road between the CTPJV plant site and the Groundrush gold deposit.

- ❑ A **transformational opportunity** to enter the precious metals sector via the acquisition of a 50% interest in the Central Tanami Project JV (CTPJV) from Northern Star Resources Ltd (ASX: NST).
- ❑ **Significant 1.6Moz gold Mineral Resource** (CTPJV 100%) with the vast majority located on **granted mining leases** and having strong potential for growth, focused on the **high grade Groundrush gold deposit** and supported by **substantial existing infrastructure**.
- ❑ Mount Gibson intends to work closely with the other party in the CTPJV, Tanami Gold NL (ASX: TAM), to position for a **potential development decision within the next 12-18 months**.
- ❑ The **acquisition cost of \$50M** (plus normal adjustments on completion) represents an **attractive entry price** at a time of **strong gold fundamentals**. Mount Gibson has **sufficient cash reserves** to fund the acquisition and its share of anticipated development costs.
- ❑ **Major land position** of approximately 5,700 km<sup>2</sup> (comprising both CTPJV and wholly-owned tenements) in a premier Australian gold region with a long history of gold production.
- ❑ Complements **Mount Gibson's strategy** to become a diversified multi-commodity producer, with this transaction being the initial step towards building a precious metals production base.

# Mount Gibson Iron

## Current Business Overview

### Corporate

- **Substantial cash and investment reserves** of \$460 million at 31 March 2025, with the updated figure to be provided in the June 2025 quarterly report shortly.
- **Targeting diversified resources investment opportunities**, with multiple existing holdings in junior companies, including a 5.4% shareholding in Queensland copper producer AIC Mines Ltd.
- Today's announced agreement to acquire a 50% interest in the CTPJV from Northern Star is an **initial step in utilising the Company's development and operating capabilities to build a gold production base**.

### Koolan Island

- **Australia's highest grade** hematite Direct Shipping Ore (DSO) operation with direct port access to market. Over 40 million tonnes shipped since 2007.
- **High grade 65% Fe** iron ore receives a **premium price**.
- Now in the **final 12-18 months** of its mine life with the operating team seeking to **maximise cashflow generation**.

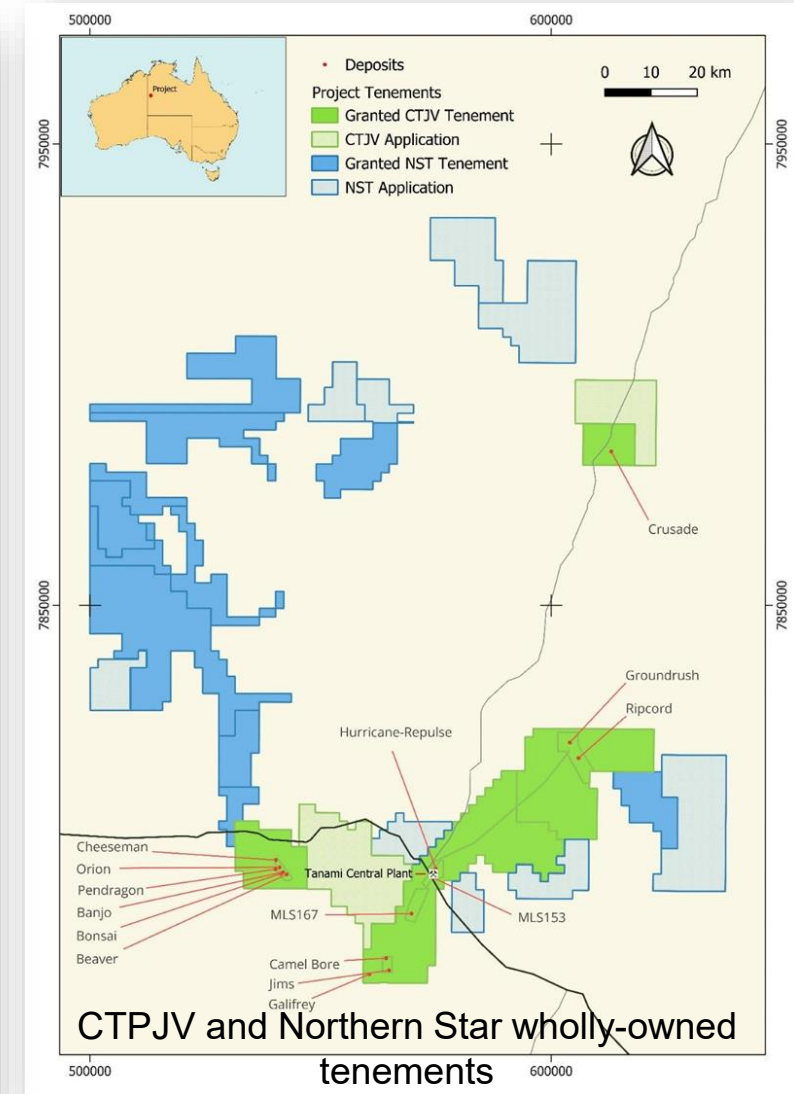

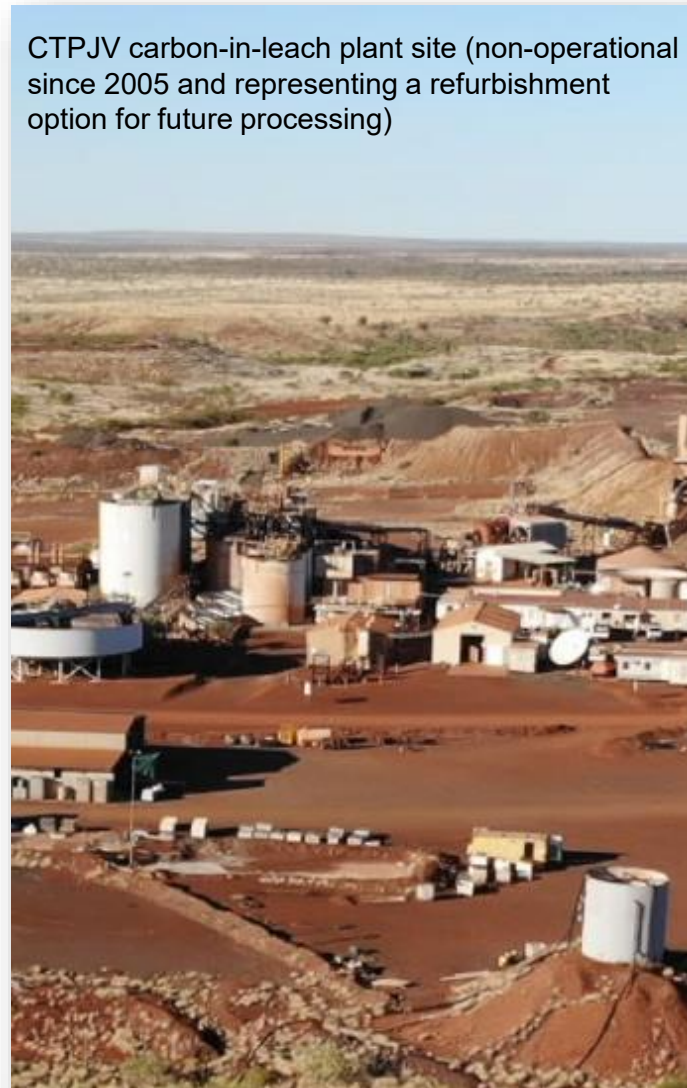

# Central Tanami Gold Project

## *Location and Key Assets*

- **Extensive mining and exploration tenure** comprising tenements within the CTPJV (2,100sqkm) and wholly-owned tenements (3,600sqkm).
- **Mineral Resource (JORC 2012) of 13.8 Mt at 3.6 g/t Au for 1.6 Moz** of contained gold, including the high grade **Groundrush gold deposit** which produced over 0.6 Moz of gold between 2001-2005 at 4 g/t Au.
- The vast majority of the Mineral Resources are located on **granted mining leases**.
- Historical estimates (JORC 2004) of **11.2 Mt at 2.7 g/t Au for 1.0 Moz<sup>1</sup>** of contained gold. Work is underway to update these estimates to JORC 2012 standards.
- Non-operating **1.2 Mtpa Carbon-in-Leach processing plant** which has been idle since 2005 and represents a refurbishment option for future development.
- **Other infrastructure** includes mine haul roads, water borefield, accommodation camp and a 1.4km gravel airstrip located at the site.

Notes: (1) A Competent Person has not yet completed sufficient work to classify these historical estimates in accordance with JORC 2012 and it is uncertain that following further evaluation and/or exploration work that these historical estimates will be able to be reported in accordance with JORC 2012.

# Central Tanami Gold Project

## *Key Transaction Terms*

- ❑ Cash payment of \$50 million upon completion once key conditions (refer below) are satisfied.
- ❑ Mount Gibson to acquire Northern Star's subsidiary entity which holds Northern Star's 50% interest in the (unincorporated) CTPJV and its adjacent wholly-owned exploration tenure.
- ❑ Mount Gibson to replace existing bank guarantees totalling \$5.8 million, to be provided from Mount Gibson's existing performance bonding facility.

- ❑ Mount Gibson to reimburse Northern Star for its share of approved CTPJV expenses in excess of \$3 million incurred between the agreement date and completion.

The transaction is conditional upon the following being satisfied on or before 31 March 2026:

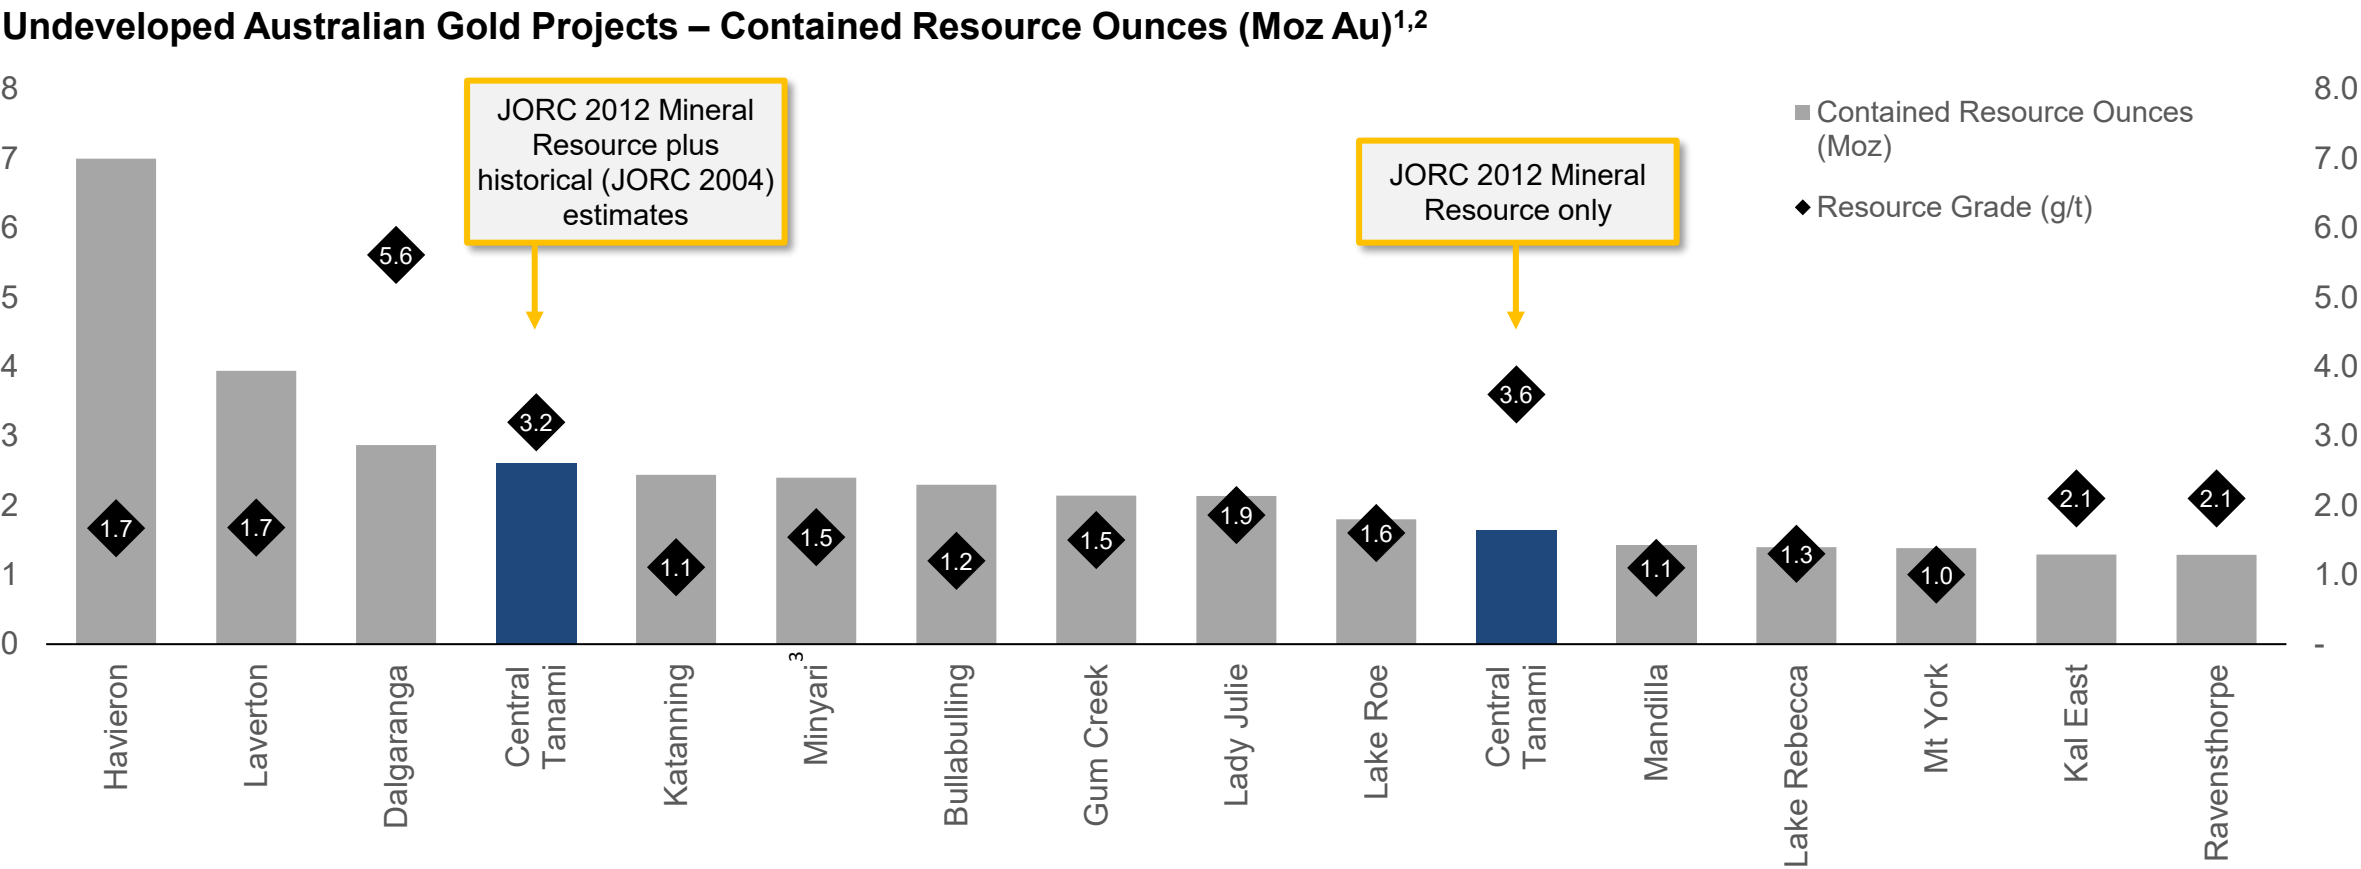

- ❑ Approval by Australia's Foreign Investment Review Board (FIRB);
- ❑ Further extension of infrastructure arrangements on one tenement by the Central Land Council;
- ❑ Non-exercise by Tanami Gold NL of its first right of refusal under the CTPJV; and
- ❑ Miscellaneous pre-completion conditions typical for this type of transaction.

# A Significant Undeveloped Australian Gold Project ...

The Central Tanami Gold Project is one of Australia’s largest undeveloped, high-grade gold projects.

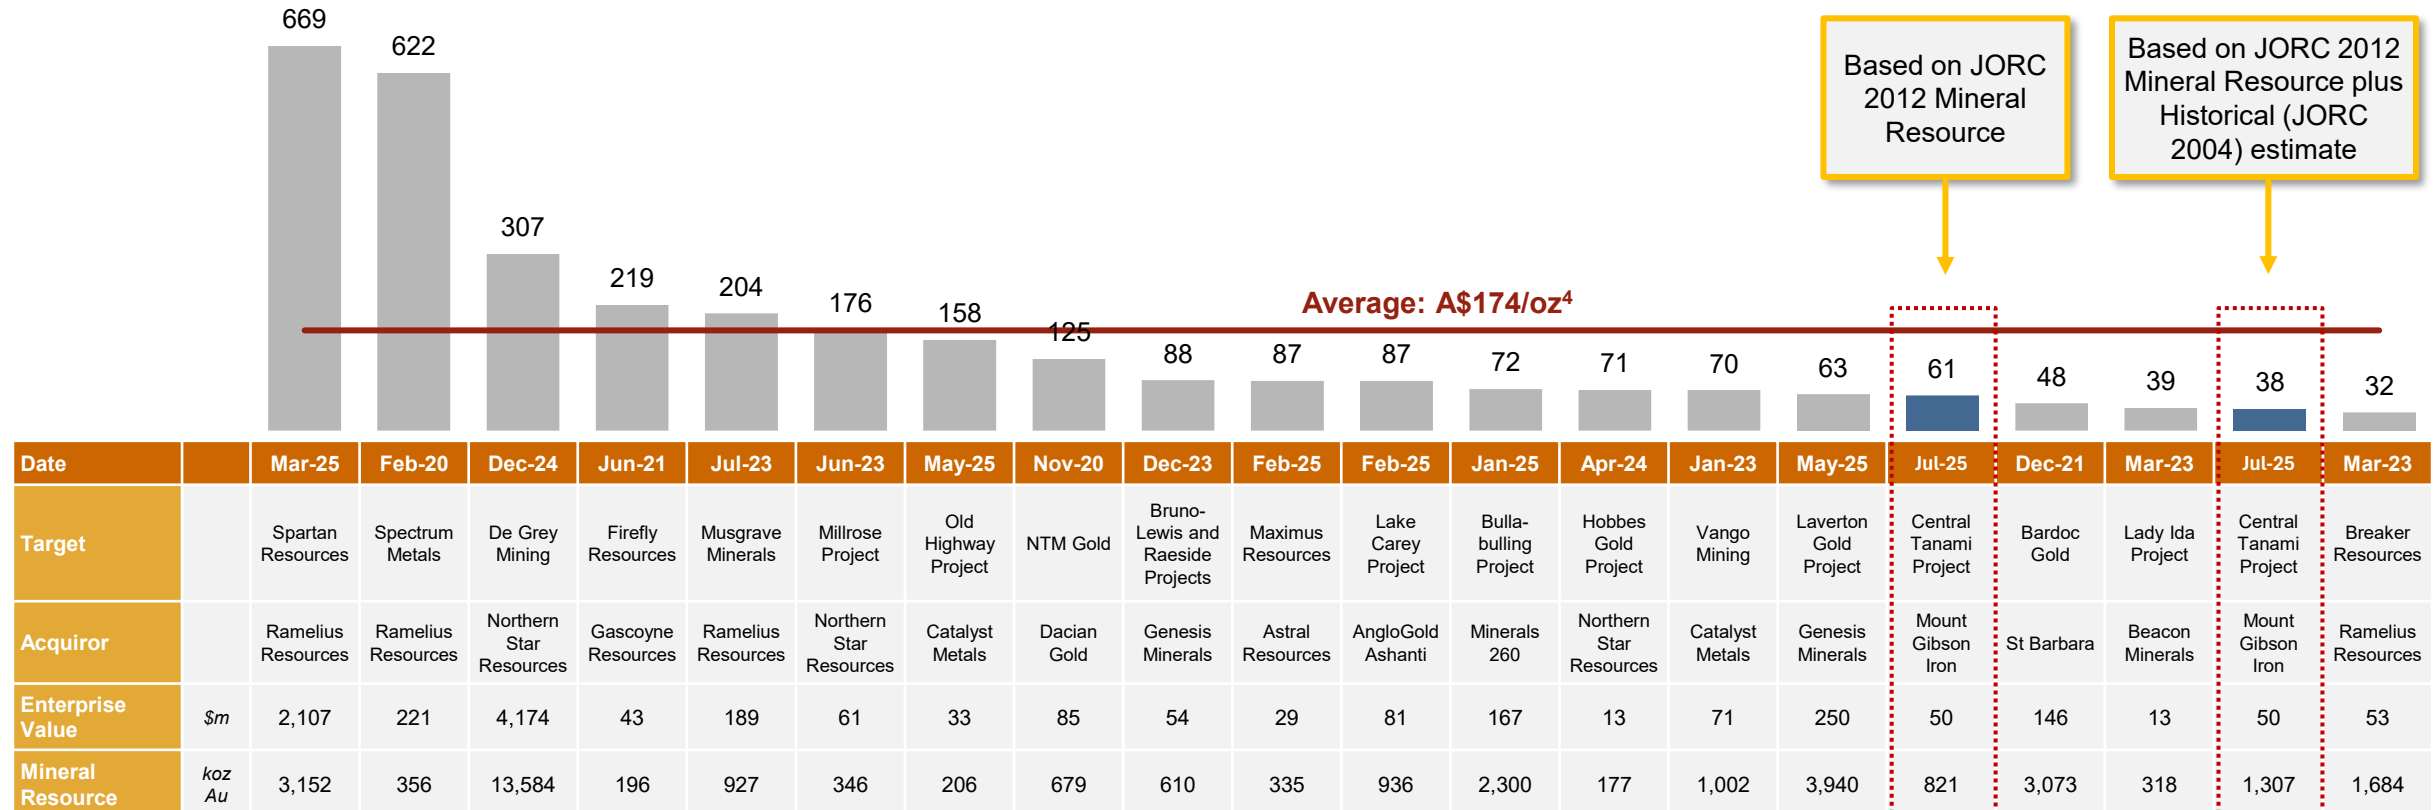

Notes: (1) Refer to Appendix 1 for supporting data; (2) Figures represent latest gold-only Mineral Resource and grades; and (3) Minyari Dome, exclusive of Chicken Ranch and Tims Dome satellite deposits.

# ... at an Attractive Acquisition Multiple

The acquisition multiple of \$61/oz<sup>1</sup> (or \$38/oz when including historical (JORC 2004) estimates<sup>2</sup>) represents compelling value, relative to the average comparable multiple of \$174/oz.

## Precedent Gold Transaction Multiples (\$/oz)<sup>3</sup>

Notes: (1) Contained ounces of the JORC 2012 Mineral Resource estimate; (2) Contained ounces of both JORC 2012 Mineral Resource and historical (JORC 2004) estimates; (3) Source data, including Mineral Resources and transaction details, are included in Appendix 2; and (4) Average does not include Mount Gibson's acquisition of 50% of the CTPJV.

# Central Tanami Project JV

## Prospective Mine Corridor from Jims to Groundrush

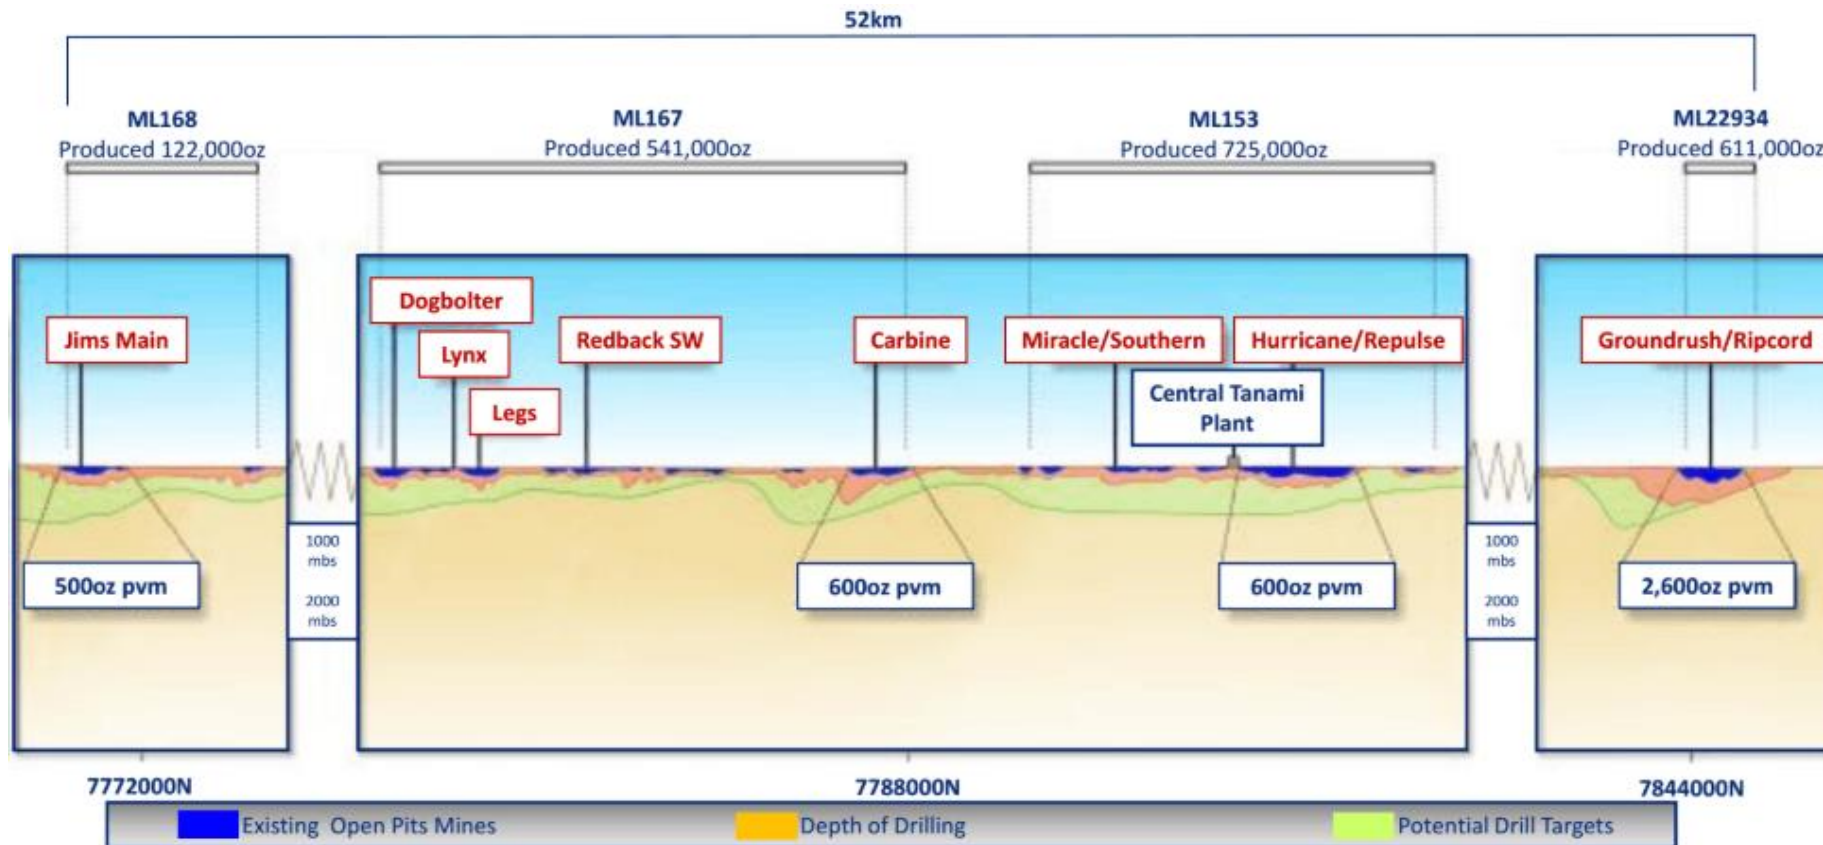

Illustration source: Northern Star - Central Tanami Project JV Annual Geoscience Exploration Seminar Presentation, published on the ASX by Tanami Gold NL on 19 April 2023.

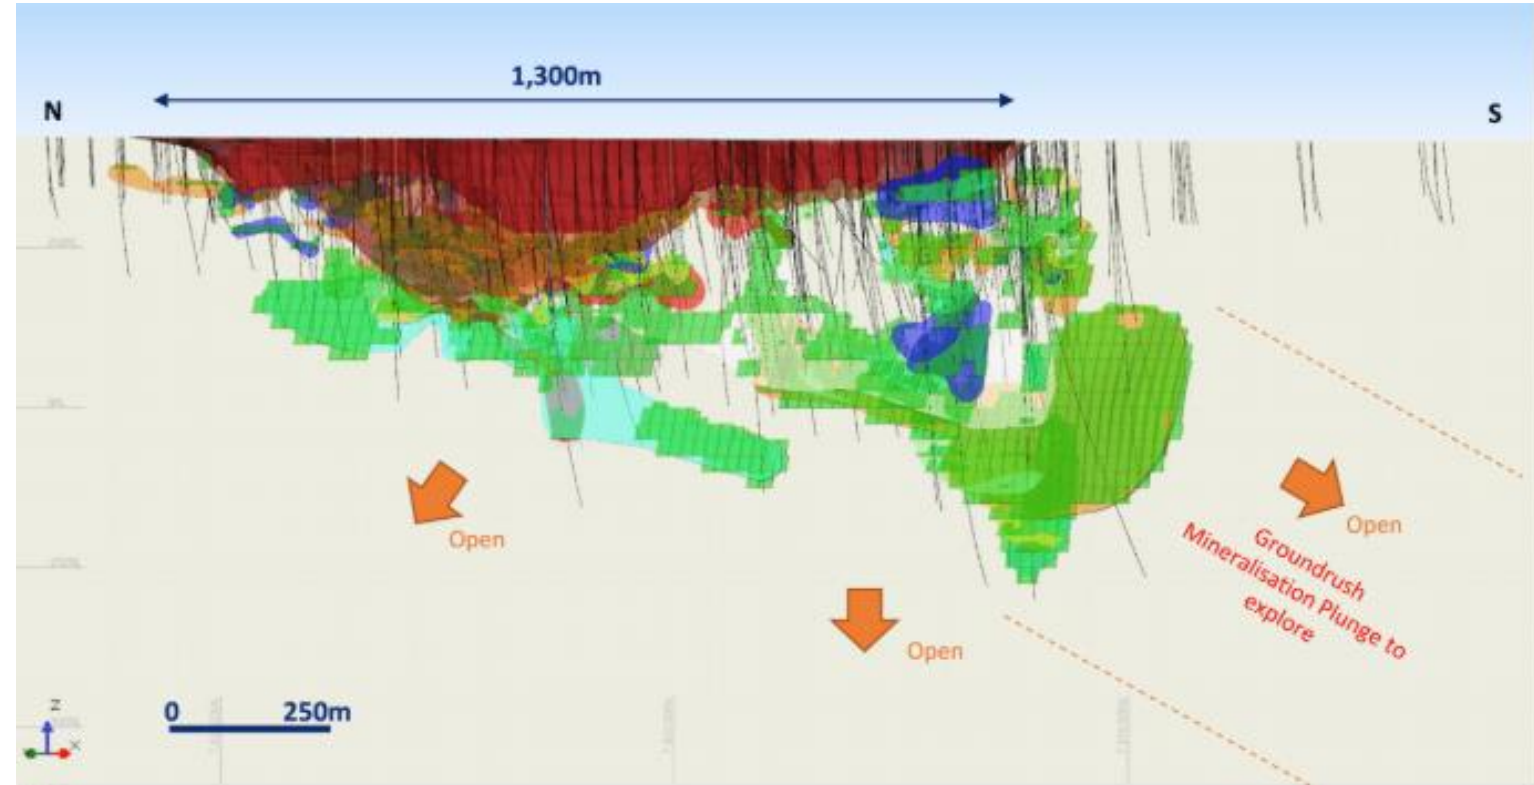

- **Over 2 Moz** were produced from the CTPJV tenements from the late 1980s to 2005.
- Current Mineral Resource (JORC 2012) of **1.6 Moz** from **11 of more than 20 known** deposits.
- Initial focus of development evaluation work is on the **Groundrush, Ripcord and Jims deposits** (combined Mineral Resource of 1.3 Moz).
- **Groundrush** produced over 600 koz at an average milled grade of 4.0 g/t Au between 2001-2005.
- **Strong potential to add resources** through resource definition drilling and further exploration.

# Central Tanami Project – Key Deposits

## Groundrush

- Located on a granted mining lease, 40km north of the existing CTPJV plant site.
- Past open pit production of 611 koz at a milled grade of 4.0 g/t Au between 2001-2005.
- Mineral Resource estimate of **7.7 Mt at 4.3/gt Au for 1.1 Moz contained gold\***.
- Constrained to open pit shell at cut-off grade of 0.7 g/t Au and underground mining stope optimisation of 1.7 g/t Au based on a gold price of **A\$2,700/oz**.
- Based on 506.8km of drilling from 43,449 holes.
- Mineralisation remains open at depth and down plunge.

Above: Long section looking North-east showing existing Pit (brown), Whittle shell (red), stope optimisation (green) and MRE wireframes. (Source: Northern Star - Central Tanami Project JV Annual Geoscience Exploration Seminar Presentation, published on the ASX by Tanami Gold NL on 19 April 2023).

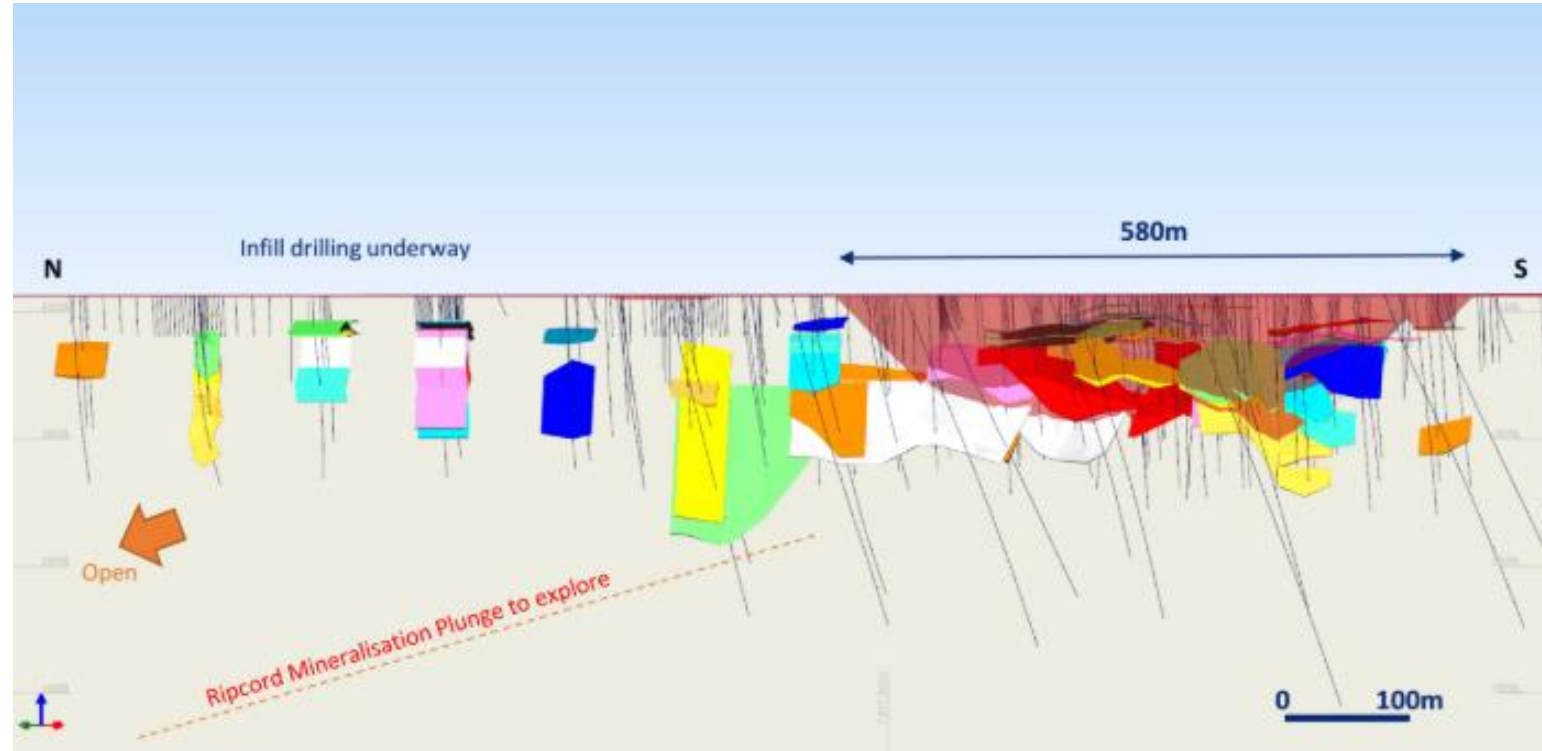

\*Refer to Mount Gibson's ASX release dated 16 July 2025 and information at the end of this presentation for Mineral Resource tables and Competent Person information

# Central Tanami Project JV – Key Deposits

## Ripcord

- Located on a granted mining lease, 3 km south of the high grade Groundrush gold deposit.
- Mineral Resource estimate of **0.75 Mt at 2.1 g/t Au for 51 koz** of contained gold\*.
- Constrained to open pit shell at cut-off grade of 0.6 g/t Au based on a gold price of **A\$2,700/oz**.
- Based on 39.7 km of drilling from 533 drillholes.
- Mineralisation remains open down dip and along strike.

Above: Long section looking North-east showing Whittle shell (red) and MRE wireframes. (Source: Northern Star - Central Tanami Project JV Annual Geoscience Exploration Seminar Presentation, published on the ASX by Tanami Gold NL on 19 April 2023).

\*Refer to MGX ASX release dated 16 July 2025 and Tanami Gold NL ASX announcement dated 24 November 2022 and entitled "Mineral Resource Updates Completed For Five Gold Deposits On The Central Tanami Project Joint Venture Yields 1.5Mozs." Refer to slides at end of this presentation for Mineral Resource tables and Competent Person information.

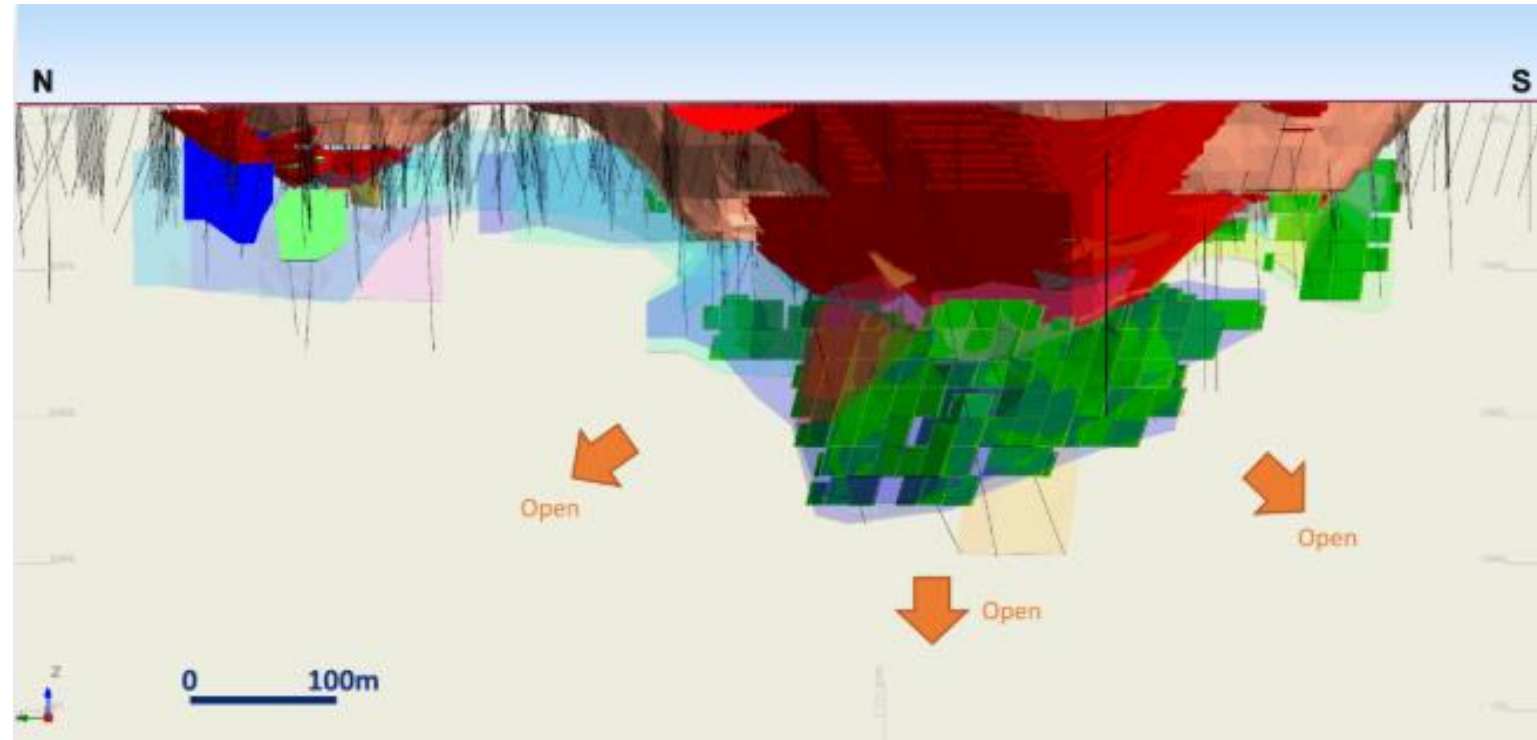

# Central Tanami Project JV – Key Deposits

*Jims*

- Located on a granted mining lease, 23 km south of the existing CTP plant site.
- Past production of 125 koz at mined grade of 2.3 g/t Au between 1998-2001.
- Mineral Resource estimate of **1.5 Mt at 2.3 g/t Au for 120 koz** of contained gold\*.
- Constrained to open pit shell at cut-off grade of 0.7 g/t Au and underground mining stope optimisation cut-off of 1.9 g/t Au based on a gold price of A\$2,700/oz.
- Based on 239 km of drilling from 6,411 drillholes.
- Mineralisation remains open down dip and along strike.

Above: Long section looking East showing existing pit (brown), Whittle shell (red), stope optimisation (green) and Mineral Resource wireframes. (Source: Northern Star - Central Tanami Project JV Annual Geoscience Exploration Seminar Presentation, published on the ASX by Tanami Gold NL on 19 April 2023).

\*Refer to MGX ASX release dated 16 July 2025 and Tanami Gold NL ASX announcement dated 24 November 2022 and entitled “Mineral Resource Updates Completed For Five Gold Deposits On The Central Tanami Project Joint Venture Yields 1.5Mozs.” Refer to slides at end of this presentation for Mineral Resource tables and Competent Person information.

**An established and well-funded independent iron ore producer** seeking to maximise operating cashflow from the remaining mine life of Koolan Island.

---

Strategy to utilise its existing development and operating capabilities to diversify as a **multi-commodity business** into other metals with **positive fundamentals** to generate investor returns.

---

Investment in the Central Tanami Gold Project represents an initial step in establishing a **precious metals production base for the business.**

---

The acquisition has **attractive entry and investment metrics**, and provides Mount Gibson with a **meaningful presence in a major established gold producing region.**

**Note regarding Historical Estimates:** A Competent Person has not completed sufficient work to classify the historical estimates as Mineral Resources in accordance with the JORC 2012 Code. It is uncertain, following evaluation and/or further exploration work, that the historical estimates can be reported as Mineral Resources in accordance with JORC 2012. Refer to the following pages for further information.

**Notes:** Mineral Resource estimates are not precise calculations, being dependent on the interpretation of limited information on the location, shape and continuity of the occurrence and on the available sampling results. The quantities contained in the above table for each deposit have been rounded to two significant figures to reflect the relative uncertainty of the estimates. Rounding may cause values in the table to appear to have computational errors. Mineral Resources are reported on a dry in-situ basis. For supporting information, refer to Mount Gibson's ASX release dated 16 July 2025 regarding the acquisition of a 50% interest in the Central Tanami Project Joint Venture.

# Supplementary Information

## *Competent person information*

The information in this presentation that relates to the reported Mineral Resources Estimates for the Central Tanami Gold Project is extracted from the Tanami Gold NL (Tanami Gold) ASX announcement entitled “Annual Mineral Resource Statement” published on 14 September 2023 and reflects the information prepared on behalf of the CTPJV by MoJoe Mining Pty Ltd (MJM), as published on the ASX by Tanami Gold NL in its releases dated 24 November 2022 entitled “Mineral Resource Updates Completed For Five Gold Deposits On The Central Tanami Project Joint Venture Yields 1.5Mozs” and on 30 August 2023 entitled “Mineral Resource Updates Completed for Gold Deposits In The Molech Area”. These announcements are available to view at [www.tanami.com.au](http://www.tanami.com.au) and at [www.asx.com.au](http://www.asx.com.au). Northern Star Resources Limited (Northern Star) has also republished its attributable share of the Mineral Resources Estimates without variation in its “Annual Mineral Resources and Ore Reserves Statement as at 31 March 2025” published on the ASX on 15 May 2025, and which is available for viewing at [www.nsrld.com.au](http://www.nsrld.com.au). Mount Gibson confirms its understanding that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. To the extent disclosed above, the Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements.

Mount Gibson engaged Mr Graeme Thompson from MJM to act as Competent Person on Mount Gibson’s behalf and confirm that all material assumptions and technical parameters underpinning the Mineral Resources estimates continue to apply and have not materially changed. To the extent disclosed above, Mount Gibson confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements, and Mount Gibson confirms that it is not aware of any further new information or data that materially affects the information included in the original market announcements by Tanami Gold and Northern Star referred to above. The Competent Person’s information relating to these estimates are reported below.

### *Mineral Resource Estimates (JORC 2012)*

The information in this release that relates to the Mineral Exploration Results and Mineral Resource estimates for the Groundrush, Ripcord, Jims, Hurricane-Repulse, Crusade, Beaver, Banjo, Bonsai, Orion, Cheeseman and Pendragon Gold Deposits is based on information compiled by Mr Graeme Thompson, who is a Member of the Australasian Institute of Mining and Metallurgy, and is an employee of MoJoe Mining Pty Ltd and has been engaged as a consultant to Mount Gibson to act as Competent Person on Mount Gibson’s behalf. Mr Thompson has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he has undertaken to qualify as a Competent Person, as defined in the 2012 Edition of the Australasian Code for the Reporting of Mineral Resources and Ore Reserves. Mr Thompson provided written consent approving the inclusion of the Mineral Resource estimates in this report in the form and context in which they appear. Mount Gibson confirms that it is not aware of any new information or data that materially affects the Mineral Resource estimates as reported, and the assumptions and technical parameters underpinning the Mineral Resource estimates reported continue to apply and have not materially changed.

### *Historical estimates (JORC 2004)*

The information in this presentation that relates to the historical estimates of mineral resources in respect of MLS153 (Southern, Miracle, Bastille, Dinky and Thrasher Gold Deposits), MLS167 (Carbine, Phoenix, Redback Rise, Lynx, Legs, Bulldog and Dogbolter Gold Deposits) and MLS168 (Camel Bore Gold Deposit) were originally published by Tanami Gold on the ASX on 8 June 2011 in a release titled “Tanami Lifts Gold Resources to 2.3Moz and Unveils a 400,000oz Ore Reserve”. A Competent Person has not completed sufficient work to classify the historic estimate as mineral resources in accordance with the JORC Code 2012. It is uncertain, following evaluation and/or further exploration work that the historical estimates can be reported as mineral resources in accordance with JORC 2012.
