Disclaimer and Forward-Looking Statements

Northern Star Resources Ltd has prepared this announcement based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this announcement. To the maximum extent permitted by law, none of Northern Star Resources Limited, its directors, employees or agents, advisers, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it.

This announcement is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this announcement nor anything in it shall form the basis of any contract or commitment whatsoever.

This announcement may contain forward looking statements that are subject to risk factors associated with gold exploration, mining and production businesses. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, Resource or Reserve estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimates.

Authorised to release to the ASX by Stuart Tonkin, Managing Director & CEO.

ASX Listing Rule 5.23 Statement

The information in this announcement that relates to the current Ore Reserves and Mineral Resources of Northern Star has been extracted from the ASX release by Northern Star entitled "Resources, Reserves and Exploration Update" dated 2 May 2024 available at www.nsrld.com and www.asx.com ("Northern Star Announcement").

Northern Star confirms that it is not aware of any new information or data that materially affects the information included in the Northern Star Announcement other than changes due to normal mining depletion during the eight month period to 24 November 2024, and, in relation to the estimates of Northern Star's Ore Reserves and Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the Northern Star Announcement continue to apply and have not materially changed. Northern Star confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from that announcement.

The information in this announcement that relates to Group production targets (including subsets of such targets) to FY26 was first reported in the ASX release by Northern Star entitled "5 Year Strategic Plan – 2021 Investor Day Presentation" dated 21 July 2021 available at www.nsrld.com and www.asx.com. Northern Star confirms that all the material assumptions underpinning those production targets continue to apply and have not materially changed.

The information in this announcement that relates to KCGM production targets to FY29 was first reported in the ASX release by Northern Star entitled "KCGM Mill Expansion – FID Presentation" dated 22 June 2023 available at www.nsrld.com and www.asx.com. Northern Star confirms that all the material assumptions underpinning those production targets continue to apply and have not materially changed.

Rounding is applied in this presentation for the percentage comparisons and for all Ore Reserves and Mineral Resources figures. Mineral Resources are inclusive of Ore Reserves; and numbers are 100% NST attributable.

These figures represent JORC 2012 Mineral Resources and Ore Reserves for the combined assets owned by Northern Star.

Source: J.P. Morgan, company filings. 12 month rolling AISC data (Jun 2023 – June 2024). Global gold cost curve excludes 21 non-producing mines, 30 non-primary gold mines (<20% of total mine production) and 118 mines (26% supply) due to limited or no public data. This information has not been independently verified by Northern Star. FY24 AUD:USD assumption = 0.66. KCGM Mill Expansion denotes from FY29, first year of steady-state production for KCGM, assumed AUD:USD of 0.67. KCGM positioning from FY29 does not account for non-Northern Star future asset cost positioning.
