

+PROCESS ONLINE SITE ENTRY REQUEST - MOBILISATION (CONTRACTOR)

APPENDIX B

This is instruction on how to submit a Northern Star online site entry request when the person accessing site has NOT been cleared for site entry e.g.: visitors, delivery drivers, shut down, short term and long-term workers.

How to submit an online site entry request – Mobilisation

1. Navigate to URL: <https://northernstarresources-process.inxsoftware.com/>
+Process dashboard displays
 - Click 'Mobilisation' in the 'Create a Workflow Request' section of the dashboard

2.
 - Enter last name in 'Search For' field
 - Click 'Search' button

IMPORTANT NOTES

- The '**Include Inactive Profiles**' box is ticked by default, as this ensures that ALL profiles in the system are searched, which then reduces the opportunity to create a duplicate profile in the system
- Cancel Request** button will cancel the request and can be selected at any time until the request has been approved
- Save** button will save the details without moving the request to the next screen
- Click '**My Draft**' from the Dashboard 'In Tray' to access a request that has been initiated but is not in the status of approved or committed

3. Profiles matching the search will display
 - Confirm it is the correct profile by checking:
 - Full name
 - Employer
 - Date of Birth
 - If it is the correct profile:
 - Double click on Lookup Name in the search results
 - Go to step 4

Note: Inactive profiles will display with 'Inactive' next to the name, however, can still be selected. They will be reactivated as part of the mobilisation process.

If no matching profile displays:

- Ensure the spelling is correct in the 'Search' field
 - If there was an error; correct and search again; click on Lookup Name in search results and continue to step 4
 - If there was no error and no search results; then:
 - Click 'Create Profile' button

Note: The 'Create Profile' button won't be able to be selected until after a profile has been searched for. This is to ensure that a duplicate profile isn't created.

If the profile does not open and 'Insufficient Security' is displayed, you will need to contact your Site Administrator to place the profile into a specific site transfer group.

If you receive error message 'Lookup Name must be unique' this means, there is already a name in the system with the same naming convention of the profile you are trying to create. Cancel the request and search for the person's name again.

+PROCESS ONLINE SITE ENTRY REQUEST - MOBILISATION (CONTRACTOR)

How to submit an online site entry request – Mobilisation

4. Person Details screen displays with details from an existing INX person profile (or blank if creating a new profile)

- Review information / add information, ensure mandatory fields are populated
- Enter the individual's email address under Email Address (Username)
- Select Workgroup (if known)
 - If workgroup is unknown select the 'Transfer' workgroup of the site you are **going to**:
 - Transfer to Bronzewing (BWG)
 - Transfer to Carosue Dam (CDO)
 - Transfer to Central Tanami Project (CTP)
 - Transfer to HEMI (HEMI)
 - Transfer to Jundee (JUN)
 - Transfer to Kanowna Belle (KB)
 - Transfer to KCGM (KCGM)
 - Transfer to KCGM Growth Project (KCGM GP)
 - Transfer to NSR Discovery (EXP)
 - Transfer to Perth (PER)
 - Transfer to Pogo (PGO)
 - Transfer to South Kalgoorlie Operations (SKO)
 - Transfer to Thunderbox (TBO)
- Click 'Next' button

Note: Mandatory fields have a red asterisk

If a mandatory field is not populated then an error message will display, 'Unable to submit the page as one or more validation errors occurred'.

The mandatory field requiring data, will display with a message, e.g.: 'Please select a Supervisor'.

5. 'Mobilisation Details' screen displays

- Select 'Worker Type' – Long Term Contractor, Short Term Contractor, Shutdown Worker, Delivery Driver etc.
- Select 'Arrival Date' – date travelling to site
- Select 'Departure Date' – if only on site for one day then this date is not required
- Select 'Site to Visit' – which site is being visited
- Click 'Next' button

Note: Worker Type should match the Employment Class on the Personal Details page

6. 'Site Entry Requirements' screen displays

Requirements are dependent on the worker type selected.

- Click 'Edit' icon (pencil) on requirement
- Select Date of requirement:
 - General Construction Induction – White Card (Contractor) = date on the card
 - Driver's Licence = five years prior to expiry date
 - Police Clearance / Background Check = date on the clearance

+PROCESS ONLINE SITE ENTRY REQUEST - MOBILISATION (CONTRACTOR)

Approval Notifications:	
17. Returned for Editing: If the mobilisation request has been returned the following email notification will be sent. Within the email refer to the comments and the reason behind the return. You will need to go back into the request, (click on the request reference number to open the profile), edit the profile as requested and then re-submit for approval.	Mobilisation : INX, Vendor : Returned 
18. Committed: If the mobilisation request has been approved and site entry has been cleared the following email notification will be sent. All site requirements have uploaded into INX and the person coming to site is cleared for entry and no further action is required for this request.	Mobilisation : INX, Vendor : Committed 
19. Declined or Cancelled: If the mobilisation request has been declined or cancelled the following email notifications will be sent and the request will then be closed in the system and will not upload to INX. For further information regarding the decline or cancel please see your site contact.	Mobilisation : INX, Vendor : Declined  Mobilisation : INX, Vendor : Cancelled 

Messaging Site Administrator:	
At any stage you would like to communicate or leave a message for the Site Administrator you are able to insert a comment within the request. At the top right-hand corner of the profile there is a speech bubble that will show all communication / comments. Once a comment has been added to the system it cannot be deleted and will remain within the profile where both the Site Administrator and Initiator will be able to view. Note: Email notifications will not occur for internal comments. Once a comment has been added, to view the person must click on the speech bubble icon within the request. Notifications for comments will only occur via email when the profile has been declined or returned to the Initiator. To create a new comment, click on the speech bubble and a notification drop down box will appear, click on the blue + button to add a new comment. Once a comment has been added click on the blue tick to save or on the red cross to delete.
